

# SWIFTWATER RESCUE TECHNICIAN® ADVANCED

Meets Requirements for N.F.P.A. 1670

May 23, 24, 25th 2003

The SWIFTWATER RESCUE TECHNICIAN® ADVANCED course is the **second of two units** needed for personnel wanting to meet the requirements of the NFPA 1670 Standard at the **technician level** for water and rope (and also provides the competencies required by NFPA 1006 Professional Qualification. It integrates techniques learned in SRT1, as well as advanced river/flood situations and high angle rope techniques.

This class is the three-day format which has four to six hours of classroom presentation followed by two and one-half days of hands-on skill development, demonstrations and a mock night river rescue scenario (the second day).

## Prerequisites:

- 18 years of age or older
- adequate health insurance coverage
- basic swimming ability
- being in good physical condition
- completion of SRT1 within the previous 3 years
- certificate from a recognized technical rope rescue program

**PLEASE, NOTE!** If the rope course is not known to Rescue 3 Corporate, course objectives and a skill record must be submitted prior to the course so that it can be determined if that course includes all the required skills. Interagency technical rescue training can also be accepted with a *Record of Technical Rope Training* form being signed by an authorized departmental officer prior to the class.

## Equipment Requirements:

- full wetsuit or dry suit
- lightweight water or climbing helmet
- USCG Type III or V approved lifejacket/PFD with river knife
- water booties or tennis shoes
- gloves and fins optional
